

# PROTECT OUR BREASTS

## Safer Packaging Commitment

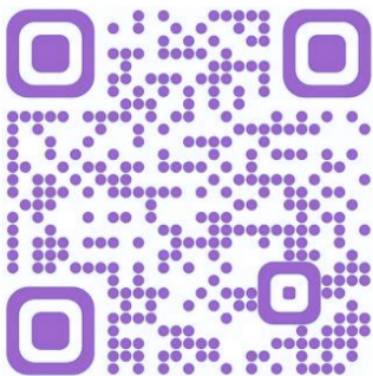

As a representative authority of \_\_\_\_\_  
(company name), I commit to working on Safer Packaging. I will share the provided three databases with my packaging supplier to identify the chemicals of concern within our packaging. I understand that our company will not need to make changes immediately, but that Protect Our Breasts will follow up every 6 months to see if progress is being made and assist in any way we can.
